

## Case Study

### **Mock Case Study – Intervention Training & Skills, Practical Mock Case.**

**First Caller:** Mother (Carol) requesting support for her **17-year-old daughter**. The daughter Mary is addicted to THC, Alcohol, Designer Drugs, maybe MDMA. Carol states that the daughter has ongoing problems since age 12 years old. In the last six months, Mary moved out of the home, she is currently living with a 21-year-old male drug dealer and a 20-year-old female drug user that is described as taking over the parenting role for Mary. Mom (Carol) states that Mary parents divorced when Mary was 7 years old, a brief time later Carol met *Henry a professional the small US county*. Carol gave clear details stating that Mary *biologic father Tom is resistant* and not willing to acknowledge that Mary has a problem with drugs, behavioral issues and continues to pay Mary's rent and basis needs.
